

KINGSWOOD ESTATES HOMEOWNERS' ASSOCIATION INC

PO BOX 1215
KINGS BEACH, CA 96143

Evacuation Plan

Kingswood Estates rests on both the east and west sides of HWY 267. In a wildfire emergency everyone needs to have a Plan to safely leave the subdivision. Remember if you are asked to leave you should, If the winds are blowing and fire is in the trees it can move very fast.

Using the evacuation map you will notice **we are directing you to HWY 267 and advising you head north towards Truckee** to get out of the Tahoe Basin. Both sides of the Highway have 2 ways to get there. These can bottleneck rapidly. Please use the exit closest to your home. Hwy 267 may have a lot of traffic.

Be Smart and drive careful, have a GO bag including any Meds you might need. In a fire be aware of weather conditions and what direction the fire is moving. Check on your neighbors make sure they are aware of what is happening. We hope you will never have to evacuate but if you do don't hesitate grab what you need and go!

The Board of Directors of Kingswood Estates values your safety, please stay aware during summer and fall months of wildfire, and keep your home fire safe by creating defensible space. Be sure to check our website for information on fire safety. www.kingswoodtahoe.org
